

7.1.2.3 The Institution has facilities for Water Conservation measures

- water Resources
- Rain Water Harvesting
- Waste water management
- Water distribution System

Water Resources:

Sree Dattha group of institutions has 2 ways of water resources; those are from Municipal Corporation and bore-wells. This water has been stored in the water tanks under the ground to supply to entire the campus.

Rain Water Harvesting:

Now a day, the water level in the ground is decreasing due to increase in population. To recharge the ground level water, the rain water from the roofs of the surfaces is redirected to Rain water harvesting pit.

Waste water Management:

The water which is used for hand wash and utensils, this water is goes to plants. Then no need to fresh water for plantation. The conventional taps are replaced by Push Type Taps to reduce the wastage of water.

Water Distribution System:

The college has an efficient water distribution system to entire campus without leakage of water. The water from the tanks are get filtered by RO plant for the drinking purpose.
