STAKEHOLDERS FEEDBACK ANALYSIS REPORT FOR THE ACADEMIC YEAR 2023-24

Objective of Feedback:

To encourage students to perform to their greatest potential for academic performance, the institute strives to provide the best learning environment and experience.

Stakeholders, such as students, teachers, and employers, are crucial to the assessment, development, and improvement of this learning process's quality.

Every academic year, the institution solicits input on the curriculum and syllabi from all stakeholders, including students, teachers, employers, and alumni, in order to assess how well its service policies may be improved and adjusted to meet the needs of stakeholders.

Faculty Feedback on Curriculum:

The purpose of the Faculty Feedback on Curriculum survey is to gather formative comments that may be applied to improving course design, delivery, and student learning experiences. Over 38 faculty from a variety of specializations provided the college with comments throughout the 2023- 2024 academic year. The information is examined, and their recommendations are taken into account for potential inclusion in the curriculum.

In the 2023–2024 academic year, the college gathered feedback from about 38 faculty from various streams. The information is examined, and their recommendations are taken into account for potential inclusion in the curriculum.

ANALYSIS:

At the conclusion of each semester or academic year, the faculty of B. Pharmacy, Pharma D, Pharma D PB, and M. Pharmacy were asked for their opinions on the curriculum.

S.No	Course offered	No. of Feedbacks Collected

ACTION TAKEN ON FEEDBACK REPORT FOR THE ACADEMIC YEAR – 2023-24

FACULTY FEEDBACK ON CURRICULUM

As part of its affiliation with JNTU Hyderabad, SDIP's academic programme was created by the university's Board of Studies. Before creating the curriculum blueprint, the Board of Studies solicits feedback and suggestions from the connected institutions by holding meetings with their respective principals.

Yet, the institution gets input on the creation of the curriculum from a range of stakeholders. In the institution, the input is compiled and examined during college academic sessions. Institutions have the following plans in response to the feedback requirement:

1. The teachers' feedback demonstrated the relevance and suitability of the curriculum. Also, it is quite useful in adapting the course material to meet societal needs.
2. New technical labs are to be introduced, and other reference books outside the existing ones will be brought to strengthen their perspective on the subjects.
3. To enhance the curriculum, departmental activities may be evaluated, and action plans may be put into place with feedback from topic specialists.
4. By holding Research Conferences, research activities were boosted.
5. To provide training programmes both by academicians and industry specialists.
