Blood Donation Camp

According to WHO data, India faces a shortage of 3 million blood units. This shortage can easily be eliminated if only an additional 2% of India's youth donates blood. Organizing blood donation camps is the perfect way to cater to the demand of blood. Everyone wants to contribute towards the society and save lives. Our Institute, camp organizer, are giving everyone a chance to do so. Our Institute "Sree Dattha Institute of Engineering and Science" Organize these camps regularly and bring smiles to many faces.

Blood cannot be manufactured in factories; it can only come from generous donors. To cater to this demand, we organize the Blood Camps regularly to get the objective of solving the problem of blood shortage in India. Our Institute conducted the Blood Donation Camp at our College, "Sree Dattha Institute of Engineering and Science, Sheriguda (V), Ibrahimpatnam (M), Ranga Reddy District" on 26th October 2014.

"Don't let fools or mosquitoes suck your blood, put it to good use. Donate blood and save a life"
