SREE DATTHA INSTITUTE OF ENGINEERING AND SCIENCE

SHERIGUDA, IBRAHIMPATNAM

Department of Electronics and Communication Engineering

E-NEWS LETTER-TECH PATRA

Vision of Department: To become world reputed centre for the Electronics and Communication Engineering education and inventions for the benefit of society.

Dept Mission 1: Train the Stake holders to gain knowledge in Electronics & Communication Engineering.
Dept Mission 2: Promote and involve in Social, Professional & Leadership activities.
Dept Mission 3: Provide state of the Art facilities to promote logical and innovative thinking.
Dept Mission 4: Collaborate to meet the challenges and betterment of the mankind.

SREE DATTHA INSTITUTE OF ENGINEERING AND SCIENCE
SHERIGUDA, IBRAHIMPATNAM, HYD

Vision, Mission of the Institute

Vision:
- To develop this Institute as one of the premier & top-class institution in India.

- To be an academic institution in dynamic equilibrium with its social ecological and economic environment, striving continuously to excellence in education, research and technological service to nation.

Mission:
- To provide high quality enterprising students with excellent technological skills

- To create and sustain a community of learning in which students acquire knowledge and learn to apply it professionally with due consideration for ethical and economic issues

- To pursue Research and disseminate research findings

- To help in building national capabilities in science, technology, humanities, management, education and research.

About the Department

The Department of Electronics and communication Engineering degree prepare graduates for successful, profitable and lifelong careers in Electronics and Communication Engineering. In this Engineering students study hardware and software systems through innovative classroom instructions, supported by laboratories equipped with the state of-the-art hardware and software. The department ensures that the students are introduced to both fundamental and advanced knowledge in areas such as Electronics, Communication, embedded systems, networking technology, and software etc.

Salient Features of the department are as follows.

- ➢ State of the Art Computing Facilities
- ➢ ICT in Teaching and Learning
- ➢ Teacher as Mentor
- ➢ Research & Publications with Social Impact
- ➢ Supportive Learning for Placements
- ➢ Professional Development for Industrial Engagement

Various activities conducted by the department for the students are as follows.
- ➢ Value Added Courses
- ➢ Career Oriented Add-On Courses
- ➢ Special Training for Competitive Examination
- ➢ Expert Lectures for Industry Interaction
- ➢ Report Writing & Paper Presentation
- ➢ Personality Development & Soft Skill Training

Program Educational Objectives (PEOs)

- ➢ **PEO 1:** Pursue Successful career in Industry, Research by applying contemporary Science, Engineering and Technical Skill with professional ethical values.

- ➢ **PEO 2:** Apply the Technical Skills, Analyze the Requirements, Prepare Technical Specific designs and provide novel Engineering Solutions with Ethics.

- ➢ **PEO 3:** Work in Multidisciplinary teams with effective Interpersonal skills to develop Sustainable Solutions for Industry and Society.

- ➢ **PEO 4:** Adopt the Recent Emerging Technologies and become a lifelong learner to analyze and produce efficient product designs.

PROGRAM OUTCOMES(PO'S)

1. An ability to apply knowledge of computing, mathematics, science and engineering fundamentals appropriate to the electronics and communication engineering.

2. An ability to analyze a problem, and identify and formulate the electronics and communication requirements appropriate to its solution.

3. An ability to design, implement, and evaluate electronics and communication based system, process, component, or program to meet desired needs with appropriate Consideration for public health and safety, cultural, societal and environmental considerations.

4. An ability to design and conduct experiments, as well as to analyze and interpret data.

5. An ability to use current techniques, skills, and modern tools necessary for practice.

6. An ability to analyze the local and global impact of electronic communication on individuals, organizations, and society.

7. Knowledge of contemporary issues.

8. An understanding of professional, ethical, legal, security and social issues and responsibilities.

9. An ability to function effectively individually and on teams, including diverse and multidisciplinary, to accomplish a common goal.

10. An ability to communicate effectively with a range of audiences.

11. Recognition of the need for and an ability to engage in continuing professional development.

12. An understanding of engineering and management principles and apply these to one's own work, as a member and leader in a team, to manage projects.

ISRO LATEST TRENDZ

PSLV-C36 Successfully Launches RESOURCESAT-2A Remote Sensing Satellite

In its thirty eighth flight (PSLV-C36), ISRO's Polar Satellite Launch Vehicle successfully launched the 1235 kg RESOURCESAT-2A Satellite today morning (December 07, 2016) from Satish Dhawan Space Centre SHAR, Sriharikota. This is the thirty seventh consecutively successful mission of PSLV.

After PSLV-C36 lift-off at 10:25 am IST from the First Launch Pad with the ignition of the first stage, the subsequent important flight events, namely, strap-on ignitions and separations, first stage separation, second stage ignition, payload fairing separation, second stage separation, third stage ignition and separation, fourth stage ignition and cut-off, took place as planned. After a flight of 17 minutes 05 seconds, the vehicle achieved a polar Sun Synchronous Orbit of 824 km height inclined at an angle of 98.725 degree to the equator (very close to the intended orbit) and 47 seconds later, RESOURCESAT-2A was separated from the PSLV fourth stage.

After separation, the two solar arrays of RESOURCESAT-2A deployed automatically and ISRO's Telemetry, Tracking and Command Network (ISTRAC) at Bangalore took over the control of the satellite. In the coming days, the satellite will be brought to its final operational configuration following which it will begin to provide imagery from its three cameras. The data sent by RESOURCESAT-2A will be useful for agricultural applications like crop area and crop production estimation, drought monitoring, soil mapping, cropping system analysis and farm advisories generation.

Like its predecessors RESOURCESAT-1 and 2, RESOURCESAT-2A has a unique 3-Tier imaging system with Advanced Wide Field Sensor (AWiFS), Linear Imaging Self Scanner-3 (LISS-3) and Linear Imaging Self Scanner-4 (LISS-4) cameras. The AWiFS provides images with a sampling of 56

metres, a swath of 740 km and a revisit of 5 days whereas the LISS-3 provides 23.5 metre sampled images with 141 km swath and a repitivity of 24 days. LISS-4 provides 5.8 metre sampled images with 70 km swath and a revisit of 5 days.

With today's launch, the PSLV has yet again demonstrated its reliability. The total number of satellites launched by India's workhorse launch vehicle PSLV including today's RESOURCESAT-2A has now reached 122, of which 43 are Indian and the remaining 79 are from abroad.

INSPIRING QUOTES

A Warm Welcome to the Just joined Engineers By Honoured People. Our Orientation day held auspiciously with a heartful and fulfilling education strategies directed with confidence AUGUEST 12 2016

Appreciations from Our Honourable Chairman Sir Sri G Pandu Ranga Reddy Garu 👌
Club is just a lil bit away from success 😇😋
Will surely succeed soon 👍👌
Great work by all😇

Post-independence day posting of the 70th Independence Day celebrations

The sound of Patriotic songs on the loudspeakers or radio awaking you from the sweet early morning sleep, the parade at Laal Qila telecast on our old forgotten friend – "the reverend Doordarshan" who comes alive only on few occasions or The energetic, enthusiastic preparation of school kids for attending the flag hoisting ceremony - is it the pack of sweets, or innocent patriotism in them that drives these little angels to be a part of independence day celebrations? whatever, once we were part of it, today these scenes and voices and sounds evoke a sense of nationalism in us and slowly revive the patriotism somewhere still alive in us…. & we very much become conscious of the Independence Day celebrations around us. How many of you share these feelings with me? May be all of my country men, strongly hope so… but as the evening of independence reaches, slowly the revived nationalism subsides in the daily chores and problems of life.

Do we not dream of our India as a powerful nation or a super power? Yes, every one of us should coz we want our children, young brothers and sisters to have a secure, safe and prosperous motherland but how many of us really contribute to make it one? – is this discussion still not an adornment of symposiums, conferences and consortia -, restricted only till discussions and planning? That is what I feel.

As an academician I had these thoughts in my mind on 15th August 2016 while I was commuting in my car towards my college for attending the flag hoisting ceremony, that, will the face of our nation change if peace and harmony prevails in our great nation? and this peace can be achieved only by transforming a free India into a spiritual and literate India, spirituality will bring the awareness of what is forbidden and righteous in the minds of Indians that will prevent us from committing petty immoral acts to heinous crimes on humanity and literacy will lead to knowledge and skills that will make our young Indians employable and engaged in productive activity or nation building tasks and here comes the role of teachers, it is the schools and colleges where the children and youth spend lot of their time and less with their parents belonging to the generation – lost.

If a teacher has the power to carve out a state from India for the prosperity of its rightful inheritors by making his vision turn into reality, then I think that the same power lies within every passionate teacher who can carve out a super power from this largest continent called Asia.

We don't miss an opportunity to criticize the young generation when any wrong happens in the society due to one misguided youngster, but believe me it is this young generation in which we find a ray of strong hope, like a silver lining in the dark clouds , a hope that leads to strong faith because of what they do differently on occasions like independence or republic day, one such act of Sree Dattha' Students that differs them from the ordinary is they spending their independence day with children of Govt. school by appreciating and rewarding their tiny achievements and making their teachers proud, does it not portray the sprouting of an ethical, compassionate and concerned India that will build the foundation of a peaceful, strong and literate super   power.
JAI HIND

PLACEMENTS BY TASK

A 3 Day National Level Workshop is being conducted in Sree dattha Group of Institutions on Web design using HTML 5. These are the Promotional Poster & Brochure Releases

ABOUT COLLEGE?

Founded in 2010 by Vyjayanthi Educational Society, Sree Dattha Group of Institutions represents a rich tradition of excellence in technology-based education. A premier-league institution among the affiliates of JNTU, Sree Dattha College of Engineering owes its vision to Sri G. Panduranga Reddy, a veteran statesman of Independent India.

The rapid rate of technological advancement and the information revolution has opened new challenges as well as opportunities. Sree Dattha Institutions aim to prepare the students to be successful in the changing work place. It aims to equip the students with technical knowledge and capabilities, flexibility and understanding of the societal context of the corporate world.

HYPERTEXT MARKUP LANGUAGE (HTML) IS THE STANDARD MARKUP LANGUAGE FOR CREATING WEB PAGES AND WEB APPLICATIONS. WITH CASCADING STYLE SHEETS (CSS), AND JAVASCRIPT, IT FORMS A TRIAD OF CORNERSTONE TECHNOLOGIES FOR THE WORLD WIDE WEB. WEB BROWSERS RECEIVE HTML DOCUMENTS FROM A WEBSERVER OR FROM LOCAL STORAGE AND RENDER THEM INTO MULTIMEDIA WEB PAGES. HTML DESCRIBES THE STRUCTURE OF A WEB PAGE SEMANTICALLY AND ORIGINALLY INCLUDED CUES FOR THE APPEARANCE OF THE DOCUMENT.

HTML CAN EMBED PROGRAMS WRITTEN IN A SCRIPTING LANGUAGE SUCH AS JAVASCRIPT WHICH AFFECT THE BEHAVIOR AND CONTENT OF WEB PAGES. INCLUSION OF CSS DEFINES THE LOOK AND LAYOUT OF CONTENT. THE WORLD WIDE WEB CONSORTIUM (W3C), MAINTAINER OF BOTH THE HTML AND THE CSS STANDARDS, HAS ENCOURAGED THE USE OF CSS OVER EXPLICIT PRESENTATIONAL HTML SINCE 1997.

HTML 5

DAY 1
- History Of HTML
- HTML Elements
- Designing Web pages
- Designing Websites

DAY 2
- HTML5 Basics
- New Elements Supported by HTML 5
- Designing WebSite using HTML 5

DAY 3
- CSS
- Javascript
- Usage of Javascript in Web Sites

The Starting Ceremony of the Workshop being conducted in Sree dattha Group of Institutions on Web design Using Html 5 OCTOBER 1ST 2016

An auspicious day to start with any good work, it was today that good won victory over bad. May this day clear all hurdles of your life and start new era of well-being Happy Dussehra all the Students, Parents and faculty from Sree Dattha Group

A Drastic change over from 2010 to 2016. For more Photos stay tuned to our page and Soon a Video tour shall be uploaded in our YouTube channel: Sree Dattha Institutions

Merry Christmas to all the Apprentice and whole family of Sree Dattha. We feel this Xmas tree also. represents our institution because we feel that we are all branches of a tree (Institution).
