ABOUT THE COLLEGE

Founded in 2001 by Vijayanthi Educational Society, Sree Datttha Institute of Engineering & Science represents a rich tradition of excellence in technology-based education. A premier-league institution among the affiliates of JNTU, Sree Datttha Institute of Engineering & Science owes its vision to Sri. G. Panduranga Reddy, a veteran statesman of Independent India. The rapid rate of technological advancement and the information revolution has opened new challenges as well as opportunities.

Sree Datttha Institute of Engineering & Science aim to prepare the students to be successful in the changing work place. It aims to equip the students with technical knowledge and capabilities, flexibility and understanding of the social context of the corporate world.

ABOUT THE DEPARTMENT

The primary objective of the electrical department of Sree Datttha Institute of Engineering & Science to impart quality education and training at undergraduate level in the areas of Electrical Engineering. Sree Datttha Institute of Engineering & Science aim to train students so that they can sustain in a global competitive environment with very strong basic foundation in the field of electrical engineering.

Department also promotes industrial visit/training, power plant visit and expert lectures to provide practical training in the field of Electrical Engineering.

Established in the year 2001, Sree Datttha Institute of Engineering & Science offers a 4-year bachelors degree, 2-year masters degree and a 3-years long diploma in Electrical & Electronics Engineering (EEE).

PREAMBLE:

The Most Used Guiding Force behind an Automated Industrial Plant is a "Programmable Logic Controller" Generally Known as a PLC. PLCs Along With Certain Other Necessary Ingredients Like Sensors, Motors, Actuators, Valves, Conveyors, Boilers, SCADA Systems, Computers & Many More, Makes A Real Automated Manufacturing Plant.

The main objective of PLC & SCADA Workshop is to make the aspiring engineers acquainted with the conceptual as well as practical knowledge of the Industrial Automation & latest technologies being used to achieve industrial automation. The idea of organizing this workshop is to inculcate the basic fundamentals of automation in the students and provide them with a platform to work on, In The Near Future

Technical talks will be based on the following topics

1. Introduction to PLC and its features
2. Practical Training on PLC
3. Introduction to SCADA and its features
4. Practical Training on SCADA
5. Application development using PLC & SCADA

Subject: Re: Schedule on 1 and 2nd of Nov 2017 for workshop

Dear Sir/Madam

Greetings!!

We are very much happy for the interest shown towards the workshop.

This is to confirm the dates 1st , 2nd Nov,2017 .

Kindly note that this workshop is NOT about C++, This program is about "Programming Skills" which covers the following

- Data Structures&Algorithms
- C-Language essentials
- OOP concepts
- UML
- C++/Java Essentials
- Case Studies.

This program is a Project -Oriented Training program.

PFA for the contents.

<http://richmanfreeland.com/programming-skills/>

PFA for Trainer profile and some Important Points to consider for a result -oriented session.

Training charges:Rs. 100/- per student(for a minimum of 100 students.) plus Accommodation by college.

in order to avoid any delay on 1st morning, the trainer will reach the college by 31st evening at around 7 to 9pm.

Request you to provide the details of the person incharge for Accommodation .

PROGRAMMING SKILLS CONTENTS

- This Program Gives clarity between Programming and Coding
- This program improves the working skills in programming
- This program is most useful for students who do not have Data Structures and OOAD in their programming subjects

(DAY-1)

- Working with Pre-Training Case Studies.
- Programming and Coding
- Programming structure and methodology
- Data types, variables, operators, expressions, statements, blocks
- Logic building with simple math and logical problems
- Algorithms, flowcharts
- Working with Arrays, Searching, sorting techniques
- Working with Linked lists, Single, double, circular
- Working with Stacks, Queues, priority Queues.
- Working with trees, Binary trees, Binary Search trees, Heap, etc
- Tree Traversals
- Tree sorts (BST sort, Heap sort, etc)
- Working with Post-Training Case Studies-Procedure Oriented programming
- C-Language essentials

(DAY-2)

- Working with Pre-Training Case studies
- Introduction to Advanced Data Structures.
- ADTs and Class Concepts
- Objects
- Object-Oriented Concepts-Abstraction-The Core Concept.
- Encapsulation,
- Inheritance,
- Polymorphism, etc
- Relationships (Dependency, Has-a, Is-a)
- Overloading, Overriding
- Interfaces, Other OO concepts.
- UML Essentials
- Working with Post-Training Case Studies, Object-Oriented Programming.
- C++/Java Language essentials
- Presentations and Q&A.
